# Guided Setup

## Connect Cables

Please follow the diagram to install your phones.  Once plugged in, the phone will automatically download its configuration and start to work after a few minutes.

**Connecting the Cordless Base:**

1. Open the box and remove the Cordless Base, Power Adapter and Ethernet cable.
2. Connect one end of the Ethernet cable to the Internet port on the rear of the Base Station.
3. Connect the other end of the Ethernet cable to any free port on your existing router or anywhere on your existing data network.
4. Connect the Base Station Power Adapter to the "DC 5V" connector on the Base Station, and then plug the Power Adapter into a power outlet.

**Setting up the Cordless Handsets:**

1. Open the box and remove the Handset, Power Adapter, Batteries, Belt Clip and Charging Cradle.
2. On the Handset, open the battery cover and insert the batteries in the correct order, then close the battery cover.
3. Connect the Power Adapter to the "DC 5V" connector on the Charging Cradle and then plug the Power Adapter into a power outlet.
4. Connect the optional Belt Clip to the Handset if desired.
5. Place the Handset into the Charging Cradle.

For optimal battery performance, please charge the phone for 6 hours before using.

Once the phone has been plugged in and operational, the voicemail box is functional with a default greeting.

## Handset Registration

**If this is your initial order of Yealink W52 handsets and base:**

- Your new Handsets have been pre-registered to your new Base. Please continue to the next page to setup your voicemail box.

**If this is an order for additional or replacement equipment:**

- Please see the Yealink W52 Cordless Phone Owner's Manual in the Knowledge Base at https://kb.intermedia.net/main/ for instructions on registering Handsets with the Base.

## Voicemail Box Setup

### RECORDING YOUR PERSONAL VOICEMAIL GREETING

1. Press & hold 1 on your keypad.

**-OR-**

1. Dial your extension number and press the OK key.

**-And Then-**

2. Enter the default PIN of 0000.
3. Select option 8 for User Options.
4. Select option 1 to record the Unavailable greeting.
5. Follow the voice prompts to record and check your greeting.

# Displaying Information on the LCD Screen

The idle screen may be shown as below:

Status Line

Text Line

SoftKey Line

The LCD screen is divided into three parts: Status Line, Text Line and Softkey Line.

### THE INFORMATION SHOWN IN THE STATUS LINE:

1. On hook (idle) — displays the signal strength indicator, internal handset number and battery status.
2. Off hook — displays line ID.

### THE INFORMATION SHOWN IN THE TEXT LINE:

1. On hook (idle) — displays handset name, time and date, caller information when receiving an incoming call and prompt messages.
2. Off hook — displays the dialed digits.

### THE INFORMATION SHOWN IN THE SOFTKEY LINE:

1. On hook (idle) — displays History and Line.
2. Off hook — displays various options according to the context of the specific feature.

**SIGNAL STRENGTH**
**Weak to strong:**

**No reception:**

**ICON INSTRUCTIONS**

Icons appearing on the LCD screen are described in the following table:

- Anonymous Call
- Anonymous Call Rejection
- Missed Call
- Voice Mail
- Keypad Lock
- Silent Mode
- Do Not Disturb
- Call Forward
- Call Hold
- Call Mute
- Unassigned Outgoing Line
- Unusable Line
- Loudspeaker On
- Headset Mode On
- Normal Call

**BATTERY STATUS**
The battery status displays on the top right-hand corner of the LCD screen:

**Icon Battery  Level**

| | |
|---|---|
| | Full |
| | High |
| | Medium |
| | Low |
| | Need Charging |

# Commonly Used Features
